## Riyadh Najed Schools Advanced Placement (AP) Program

Dear RNS Students, Parents, and Staff,

We are thrilled to introduce the College Board's Advanced Placement (AP) Program at Riyadh Najed Schools (RNS). As part of our ongoing commitment to academic excellence and providing our students with top-tier educational opportunities, we have become an authorized AP exam testing center as of May 2024. Starting with the 2024-2025 academic year, RNS will offer AP Calculus AB for grade 12 students within the American Diploma Program. Looking ahead, we plan to expand our AP course offerings with AP Biology & Pre-AP Geometry for grade 10, AP English Language & Composition, Pre-AP Algebra 2 or AP Chemistry for grade 11 slated for the 2025-2026 academic year.

### What is the AP Program?

The AP Program offers college-level courses and exams to high school students. By participating in these rigorous courses, students could earn college credit and demonstrate their readiness for higher education. AP courses are recognized for their depth, challenging curriculum, and ability to prepare students for college and beyond.

### Benefits of the AP Program:

- **Academic Excellence:** AP courses are known for their rigor and high academic standards, which can help students develop strong critical thinking and problem-solving skills.
- **College Credit:** Scoring well on AP exams may earn students' college credits for selected universities, allowing them to skip introductory courses in college and potentially save both time and money.
- **Competitive Advantage:** Success in AP courses and exams can make college applications stand out and increase students' chances of being admitted to top universities.
- **Wide Range of Subjects:** AP offers a diverse selection of courses across various subjects, enabling students to explore their interests and pursue their passions.

## Riyadh Najed Schools AP Goals, Objectives, and Commitments

### Our Goal

At Riyadh Najed Schools, our strategic goal for the next three years is to expand our Advanced Placement (AP) program to encompass a comprehensive range of both core and non-core subjects. We are committed to offering AP courses across essential disciplines such as English, Mathematics, and Science, ensuring that our students have access to rigorous academic opportunities that are critical for their college readiness. Additionally, we aim to introduce AP courses in emerging fields like AP Computer Science Principles and other innovative subjects, reflecting our dedication to preparing students for a diverse and evolving global landscape. By broadening our AP offerings, we strive to provide a well-rounded and challenging educational experience that equips our students with the skills and knowledge to excel in their future academic and professional endeavors.

### Our Objectives

At Riyadh Najed Schools, our primary objective is to push the boundaries of academic achievement and challenge our students to excel beyond their expectations. The AP Program is a cornerstone of this mission, providing opportunities for students to engage in advanced coursework and demonstrate their readiness for higher education.

### Our Commitment

At Riyadh Najed Schools, part of our commitment is to provide our students with opportunities that challenge and motivate them, while also preparing them for a successful future. The AP Program is an essential part of this commitment, offering an avenue for academic growth and excellence. We are excited about the potential this program holds for our students and their future.

## Important AP Information & Resources

We would like to provide important information related to AP for the academic school year 2024-2025. Please review the following links regarding crucial AP related topics.
